UI Requirements Document

Three-Portal System: Admin | Agent | Customer

Date: June 04, 2026

Status: Draft v1.0

Prepared for the development team

All wireframes are conceptual — final UI may vary

Table of Contents

1. Public / Guest Pages
2. Admin Portal
3. Agent Portal
4. Customer Portal
5. Shared / Global Components
6. Data Fields Matrix

1. Public / Guest Pages

1.1. Vehicle Listing — GET /vehicle/

Landing page showing all available vehicles with search/filter. No authentication required.

Field / Section	Description
Data Fields	brand, model, year, price, body_type, fuel_type, transmission, seating_capacity, status, primary photo, supplier name
Filters	brand, model, fuel_type, status (available/reserved/discontinued/delivered), price_min, price_max
Actions	Click card to view detail; filter/search; pagination

1.4. Email Verification Flow

Sent automatically on registration. User clicks link, sees success or error page.

Field / Section	Description
Success Page	Green checkmark, 'Email verified successfully!', [Login] button
Error Page	Red X, 'Link expired or invalid', [Resend Verification] button
Token	SHA-256 hashed, 5-minute expiry, stored in access_tokens table

2. Admin Portal

Full system management interface. Access restricted to role='admin'. Sections organized in a sidebar nav.

2.1. Dashboard (implied, /admin/dashboard)

Overview page with KPI cards and recent activity feed.

Field / Section	Description
Summary Cards	Total Users (+new this month), Vehicles (low stock count), Revenue (total sales), Inquiries (open), Documents (pending), Loans (overdue)
Recent Activity	Audit log feed (last 10 actions) with timestamp, user, action description
Quick Actions	Create User, Add Vehicle, View Inquiries, Upload Document

3	msmith	m@b.com	customer	[N]	[E][D]

Pagination: [<] 1 2 3 ... 10 [>]

[Footer]

Create Customer Account — POST /auth/customer/create

Simple form: email field → system creates user with role=customer and sends verification email.

Create Agent Account — POST /auth/registerAgent

Fields: full_name, username, email, password, confirmPassword. Creates user with role=agent.

Edit User — PUT /admin/users/update/<id>

Slide-out panel or modal: username, email, role (dropdown: admin/agent/customer).

User Detail — GET /admin/users/<id>

Field / Section	Description
Account Info	user_id, username, email, role, is_active, email_verified, created_at, last_login
Profile Section	full_name, phone_number, address, city, province, zip_code, date_of_birth, gender

2.3. Agent Management — /admin/agents

Field / Section	Description
Table Columns	agent_id, full_name, employee_number, default_commission_rate, hire_date, total_sales
Actions	Edit: hire_date, default_commission_rate (modal)

2.4. Customer Management — /admin/customer

Customer List

Columns: customer_id, full_name, email, preferred_contact_method, preferred_payment_method. Actions: [View Detail].

Customer Detail — /admin/customer/<id>

Editable preferences: preferred_contact_method, preferred_payment_method, notes. Read-only: purchased vehicle sales history.

2.5. Vehicle Management — /vehicle/* (admin)

Vehicle List

Admin > Vehicles						
[+Add Vehicle] [/][Search...]				Status: [All ▼]		
ID	Brand	Model	Year	Price	Status	Action
1	Toyota	Camry	2025	\$32,000	Avail	[E][D]
2	Honda	Civic	2025	\$28,500	Reserved	[E][D]
3	Ford	F-150	2024	\$45,000	Delivd	[E][D]
Pagination: [<] 1 2 3 ... 10 [>]						
[Footer]						

Add / Edit Vehicle

Field / Section	Description
Left Column	supplier_id (dropdown), brand, model, year, VIN, price
Right Column	body_type, color, fuel_type, seating_capacity, transmission, status, specs_json (JSON textarea)
Photos	Upload photo (URL + sort_order), existing photo thumbnails with delete button

Update Vehicle Status — PUT /vehicle/update/status/<id>

Status dropdown: available, reserved, discontinued, delivered.

Low Stock — GET /vehicle/low_stock?threshold=N

Same table layout filtered to vehicles below stock threshold. Default threshold = 5.

2.6. Supplier Management — /supplier/

CRUD for vehicle/parts suppliers.

Field / Section	Description
Table Columns	company_name, contact_name, contact_email, contact_phone, address, is_active, created_at
Add/Edit Form	company_name, contact_name, contact_email, contact_phone, address, is_active toggle

2.7. Inquiry Management — /inquiry/

Field / Section	Description
Table Columns	ID, Vehicle, Customer/Guest Name, Message (truncated), Status, Assigned To, Actions
Filters	status (all/open/assigned/resolved/closed), agent_id
Actions	Assign to agent (if open), Close (if resolved)
Detail View	Expandable row or modal: full message, customer info, vehicle info, status timeline

2.8. Loan Management — /admin/loans/

Loan List

Columns: ID, Sale #, Customer, Loan Amount, Interest Rate, Term, Monthly Payment, Bank Approval Status. Filters: status dropdown.

Loan Detail — /admin/loans/<id>

Admin > Loans > #1

Loan Information

Sale #42 . Toyota Camry 2025 . John Doe
Amount: \$80,000 Down: \$20,000 Rate: 6.5%
Term: 12 mo Monthly: \$1,450.32 Status: Active
Bank: ABC Bank Approval: Approved
[Update Status] [Recompute Amortization]

Amortization Schedule

Pd	Due Date	Amount	Principal	Int.	Balance
1	02/01/25	\$1,450	\$1,200	\$250	\$78,800
2	03/01/25	\$1,450	\$1,210	\$240	\$77,590
3	04/01/25	\$1,450	\$1,220	\$230	\$76,371
4	05/01/25	\$1,450	\$1,230	\$220	\$75,143
		OVERDUE			

Overdue rows highlighted red; [Mark Paid] per row

[Footer]

Create Loan — POST /admin/sales/<id>/loan

Form: loan_amount, interest_rate, term_months, down_payment, bank_name, bank_approval_status (dropdown), agent_commission_rate. Creates loan + generates amortization schedule + commission record.

Update Loan Status — PUT /admin/loans/<id>

Field: bank_approval_status (pending/approved/rejected).

Recompute Amortization — POST /admin/loans/<id>/compute

Form: interest_rate, term_months. Remaining-balance method: recalculates only unpaid periods from last_paid_period+1.

2.9. Document Management — /admin/documents/**Document List**

Columns: ID, Sale #, Document Type, File URL (link), Is Accessible, Uploaded At. Filters: document_type, sale_id. Actions: Edit, Delete.

Upload Document — POST /admin/sales/<id>/documents

Form: document_type (dropdown: OR, CR, contract, other), file_url, is_accessible (checkbox).

Update Document — PUT /admin/documents/<id>

Fields: file_url, is_accessible.

2.10. Commission Management — /agent/admin/commissions

Field / Section	Description
Table Columns	ID, Agent Name, Sale #, Amount, Rate, Is Paid, Paid At
Filters	agent_id, is_paid
Actions	[Mark as Paid] → PUT /agent/admin/commissions/<id>/pay

Agent Performance — /agent/admin/agents/<id>/performance

Stats cards: Total Sales, Total Revenue, Commission Total, Avg Commission Rate. Sales history table below.

2.11. Audit Logs — GET /logs

User/action/date filterable log viewer.

Time	User	Action	Entity	Details
10:32	admin	CREATE	loan #3	\$80,000 @ 6.5%
10:15	admin	UPDATE	vehicle #7	status → delivered
09:50	jdoe	CLOSE	inquiry #14	resolved

2.12. System Settings — /admin/settings (from API_FLOW.md)

Key-value editor for system_settings table. Table: Key, Value, Actions [Edit]. [+ Add Setting] button.

3. Agent Portal

Sales agent workspace. Role='agent'. Nav: Dashboard, Inquiries, Tasks, Commissions.

3.1. Agent Dashboard — GET /agent/dashboard

[Logo] [Dashboard] [Inquiries] [Tasks] [Commissions]			
[N] Agent: Jane ▼

[] Prepare OR documents for Sale #42 - Due 06/05			
Recent Activity			
• You assigned inquiry #14 from John Doe			
• Commission \$500 paid for sale #42			
[Footer]			

3.2. Agent Inquiries — GET /agent/inquiries

Two sections: Open Inquiries (unassigned, status=open) with [Assign to Me] button; My Inquiries (assigned to current agent) with [Mark Resolved] button.

3.3. Task Management — /agent/tasks

Task List

Columns: ID, Title, Type, Due Date, Status, Linked Inquiry, Actions (Edit/Delete). Filters: status, task_type.

Create / Edit Task

Form: task_type (dropdown: follow-up / paperwork / call / other), title, due_date, linked inquiry (optional dropdown), notes.

3.4. Agent Commissions — GET /agent/commissions

Read-only view: own commissions with sale info, amount, rate, is_paid status. Summary bar: Total Earned, Paid, Pending.

4. Customer Portal

Self-service portal for vehicle buyers. Role='customer'. Nav: Dashboard, My Loan, Documents, Inquiries, Profile.

4.1. Customer Dashboard (implied, /portal/dashboard from API_FLOW.md)

- * CR (Confirmation Receipt) - Uploaded 05/15/25

[Footer]

4.2. My Loan — GET /loans/my

My Loan

Loan Summary

- Vehicle: Toyota Camry 2025
- Loan Amount: \$80,000 Down Payment: \$20,000
- Interest: 6.5% APR Term: 12 months
- Monthly: \$1,450.32 Remaining: \$78,800.64
- Status: Active Next Due: 04/01/25

Payment Schedule

Pd	Due Date	Amount	Paid	Balance
1	02/01/25	\$1,450	[Y]	\$78,800
2	03/01/25	\$1,450	[Y]	\$77,590
3	04/01/25	\$1,450	[~]	\$76,371
4	05/01/25	\$1,450	[N]	\$75,143
		OVERDUE		

Overdue items in red

[Footer]

4.3. My Documents — GET /portal/documents

Table of documents where is_accessible=1 for the customer's sales.

#	Type	File	Sale	Date
1	OR	[View OR.pdf]	Camry 2025	05/15/25
2	CR	[View CR.pdf]	Camry 2025	05/15/25

4.4. My Inquiries — GET /inquiry/my

Table: ID, Vehicle, Message (truncated), Status, Response. [+ New Inquiry] button leads to form (vehicle dropdown + message textarea, POST /inquiry/).

4.5. My Profile — GET /profile/ + PUT /profile/update

Two-column layout:

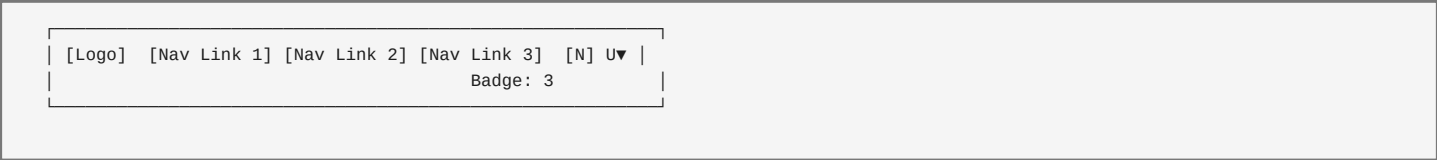

Field / Section	Description
Account Info (read-only)	username, email, role, email_verified status, member_since
Personal Info (editable)	full_name, phone_number, address, city, province, zip_code, date_of_birth, gender
Preferences (editable)	preferred_contact_method (email/phone), preferred_payment_method (full/loan)
Password	[Change Password] link → modal: old_password, new_password, confirm_password

5. Shared / Global Components

UI elements common across all portals.

5.1. Top Navigation Bar

Present on all authenticated pages. Responsive, sticky.

- * Logo — left-aligned, links to dashboard
- * Nav links — portal-specific (see per-portal sections)
- * Notification bell — badge with unread count; click opens slide-out panel
- * User dropdown — avatar + name → Profile, Change Password, Logout

5.2. Notification Panel (Slide-out)

Overlay from right. Lists unread notifications with real-time updates via Socket.IO.

- * Unread items have a blue dot indicator
- * Click to mark as read
- * [Mark All Read] button
- * Empty state: 'No new notifications'

5.3. UI Patterns

Field / Section	Description
Breadcrumbs	Present on nested pages (e.g., Admin > Users > jdoe)
Empty States	Friendly message + illustration when no data exists
Loading States	Skeleton shimmer placeholders during API calls
Toast Notifications	Green (success) / Red (error) auto-dismissable banners
Confirm Dialogs	'Are you sure?' before destructive actions (delete, etc.)
Pagination	[<] 1 2 3 ... N [>] with page size selector (10/25/50)
Error Pages	403, 404, 500 with consistent branding and home button
Sidebar Nav	Collapsible sidebar for Admin portal (many sections); top nav for Agent/Customer

6. Data Fields Matrix

Mapping of each page to its backend database tables.

Portal	Page	Data Sources (Tables)
Public	Vehicle List	vehicles + vehicle_photos + suppliers
Public	Vehicle Detail	vehicles + vehicle_photos + suppliers
Public	Inquiry Form	vehicles; POST -> inquiries
Admin	Dashboard	users + vehicles + sales + inquiries + documents + loan_details + audit_logs
Admin	Users	users + user_profile
Admin	Agents	users + agent_details
Admin	Customers	users + customer_details
Admin	Vehicles	vehicles + vehicle_photos + suppliers
Admin	Suppliers	suppliers
Admin	Inquiries	inquiries + vehicles + users
Admin	Loans	loan_details + sales + vehicles + user_profile
Admin	Documents	documents + sales
Admin	Commissions	agent_commissions + sales + agent_details
Admin	Audit Logs	audit_logs
Admin	Settings	system_settings
Agent	Dashboard	inquiries + agent_tasks + agent_commissions
Agent	Inquiries	inquiries + vehicles + users
Agent	Tasks	agent_tasks + inquiries
Agent	Commissions	agent_commissions + sales
Customer	Dashboard	sales + loan_details + documents + inquiries
Customer	My Loan	loan_details + amortization_schedule
Customer	Documents	documents + sales
Customer	Inquiries	inquiries
Customer	Profile	users + user_profile + customer_details
